

Kangaroo Island Investigator – 3 Tage / 2 Nächte

Kangaroo Island: Kangaroo Island ist der beste Ort in ganz Australien, um einheimische Tiere in ihrer natürlichen Umgebung zu sehen wie Kangaroos, Seelöwen, Schnabeltiere, Emus, Seehunde, Pinguine, Wallabies und Koalas! Das Naturparadies ist durch die Backstairs Passage von der Fleurieu Peninsula getrennt und liegt etwa 110 km südwestlich von Adelaide. Die Insel hat ein mildes Seeklima. Mit 150 km Länge, 40-60 km Breite und 4350 km² Fläche ist Kangaroo Island Australiens drittgrößte Insel nach Tasmanien und Melville Island bei Darwin.

Unser Partner vor Ort: Exceptional Kangaroos Island ist ein Familienunternehmen. Die meisten Fahrer/Führer sind Einheimische welche es schätzen, ihr Naturparadies den Besuchern näher zu bringen. Das Unternehmen bietet einen hervorragenden persönlichen Service. Der Zubereitung der Mahlzeiten wird besondere Beachtung geschenkt: Unser Tipp: Erleben und entdecken Sie Kangaroo Island mit erfahrenen einheimischen Farmern, welche auch während den Touren dem recht intakten Ökosystem Sorge tragen!

DAY 1

Begin your three day tour of Kangaroo Island with our Island Life itinerary.

Welcome to Island life – where things take time, drivers wave as they go by – or even stop for a chat.

Have a cuppa with some home-made treats before taking a walk down a country track through tall Eucalyptus trees where koalas snooze overhead or wake briefly for a feed. Listen for the sounds of the bush – brightly coloured honeyeaters and brilliant parrots, cicadas or perhaps just the sound of silence.

Travel through the Island's most productive country to the north coast. Walk through the bush with your guide – through strangely shaped trees learning what makes that noise, whose tracks are those, and who left THAT little pile there? Look for small wallabies almost extinct on the mainland, a kangaroo found only on Kangaroo Island and a variety of other birds, plants and animals.

Break for lunch at a private bush camp and enjoy a delicious meal featuring King George whiting (local sea fish), fresh salads and fine South Australian wines.

At Seal Bay Conservation Park take a private tour with your guide among Australian sea-lions on a beautiful sandy beach – an experience similar to that of the Galapagos. Watch pups nursing or playing in the surf, see old bulls bearing the scars of territorial disputes and learn about their unique breeding biology.

DAY 2

Begin the day travelling through some of the fire-affected landscapes of Kangaroo Island, which are recovering quickly following generous winter rains.

Learn about fire ecology and how nature deals with fire. Some of our native flora species only flower following fire!

Travel into Flinders Chase National Park and explore the massive shapes of Remarkable Rocks, a natural sculpture perched impossibly on top a granite dome plunging into the ocean

Break for an elegant picnic lunch in the bush, or if weather permits, on a spectacular clifftop. Lunch features marinated poached chicken, fresh salads, cheeses accompanied by local wine, beer, soft drinks and spring water.

Evidence of the power of the Southern Ocean swell continues at Admirals Arch – a coastal grotto which provides a haul out for a large colony of Long-nosed fur seals which swim effortlessly through crashing waves.

DAY 3

Begin the day in the pristine farming region of Cygnet River, which produces a range of primary food sources including barley, wheat, canola, oats, lamb and beef. Learn about the agricultural history of Kangaroo Island and pass by Kangaroo Island Pure Grain, which is 'GM-free' and offers consumers farm-gate traceability and complete production history.

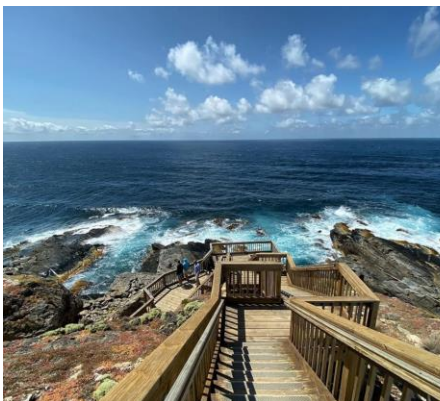

Our first stop is Kangaroo Island Olives, where father and son duo, Michael and Dom, produce olives from a grove of 5000 trees. This enterprise reflects both our Mediterranean climate and the rich immigrant history of South Australia. Our tailgate tasting includes both table olives and some of the delicious oils they produce.

On our way to the coastal town of American River, we pass Fryar's Kangaroo Island Free Range Eggs and learn about the fascinating egg farm. The hens are free to roam wherever they like foraging in the pastures under the careful protection of Maremma guardian dogs.

American River is home to the Kangaroo Island Oyster Farm Shop, which produces delicious Pacific Oysters in the calm waters of Eastern Cove. Depending on the season, we will either sample some oysters in the shop or at a secluded picnic spot. Our alfresco lunch features smoked meats, fresh salad and a selection of local beer and wines.

After lunch, we head inland to visit Clifford's Honey Farm. Since 1973, the Clifford family have specialised in producing honey from Kangaroo Island's Ligurian Bee. Here we will gain an insight into the production of honey, including a tasting of a range of honey plus Jenny's famous Honey Ice Cream!

The Islander Estate Vineyards are one of Kangaroo Island's premium wineries, producing a range of stunning red and white varieties. We visit their tasting room and will sample a selection of their wines whilst hearing about some of the creative winemaking techniques used by owner and winemaker, Jacques Lurton, from Bourdeaux, France.

End the day with a tasting at Kangaroo Island Spirits, who have won numerous awards globally (including New York and London) for their range of beautiful gins and liqueurs.

3 Tage / 2 Nächte (ab / bis Adelaide)

Englisch geführte Kleingruppentour mit max. 10 Reiset Teilnehmern
Unterkunft: Lodge oder Bed & Breakfast

Reisedaten

Täglich möglich (exklusive
Feiertage) garantiert ab 2
Personen

01.04.2024 – 31.03.2025

Preis pro Person im Doppelzimmer
